BG7000E

GENERATOR

**CONSTRUCTION GRADE
GENERATOR, BUILT TO
KEEP YOUR JOB SITE GOING**

TECHNICAL SPECS

Frequency	60Hz
Rate Output	6500W
Max Output	7000W
Voltage	120V / 240V
Rated Amperage	54.2A / 27.1A
DC Output	12V
Engine Model	LT420
Displacement	25.6cu in (420cc)
Length	29.3" (745mm)
Width	21" (530mm)
Height	23.2" (590mm)
Weight	194lbs (88kg)

FEATURES

- Electric Start - For ease of starting and includes sealed battery.
- AVR - Auto Voltage Regulation keeps voltage within 3% (+/-)
- Brushless Alternator (No brushes to change)
- Genuine Cooper™ brand GFCI Outlets - High quality electrical components that eliminate the possibility of shock to the operator
- Master Circuit Breaker - Eliminates damage of alternator
- Voltage Meter - For easy monitoring of generator performance
- 12 volt DC Outlet - provides 6.2 amps of DC power
- Large Fuel Tanks - Ensures 8 hours of run time on a single tank
- Standard Wheel Kits - for ease of maneuverability
- Roll Cage - Ensures protection of all components within the frame
